1.1.2. INTERNAL COMMUNICATION	3
1.1.3. PUBLIC OUTREACH ACTIVITIES: LEAFLET	4
1.1.4. PUBLIC OUTREACH ACTIVITIES: EUROPEAN CONFERENCES AND NATIONAL EVENTS	4

1. DESCRIPTION OF DISSEMINATION ACTIVITIES

1.1. Description of the activities carried out during the reporting period

Activities in WP2 – Dissemination – comprise three actions: 1) Webpage; 2) internal communication and exchange; 3) public outreach activities (leaflet and conferences).

1.1.1. Webpage

The EPPIC webpage has been improved constantly. The content has grown and separate sections have been re-arranged after consultations with all project partners.

The start-page is now decorated with photos of team members of all project partners.

There is information of most recent project events such as project meetings. Presentations by project partners are uploaded.

Announcements for upcoming conferences where project partners are planning contributions are presented.

Most recent Tweets are displayed.

A “reply-box” has been provided (but is not used).

In the “project section” general information on outcomes are uploaded in the respective section. This includes executive summaries in national languages, national reports, summaries of international standards, and conference posters.

Information is uploaded regularly in the country sections of the project partners.

1.1.2. Internal communication

Internal communication has been supported and improved by the installation of the software-programme Freedcamp. This provides all project partners with an exchange-tool

- to contribute to discussions (e.g. on specific terms like prevention, vulnerability, enforcement context etc.)
- to display milestones
- to keep up to date with a calendar
- to share files for internal use (e.g. guidelines for conducting interviews, templates, draft agendas and minutes etc.)

Administrative matters and preliminary results were exchanged in a number of tele-conferences:

- 13. Sept. 2017
- Oct. 2017
- 20. Nov. 2017

1.1.3. Public outreach activities: Leaflet

A promotion folder has been produced (in English language) to be distributed both in print and in electronic version.

1.1.4. Public outreach activities: European conferences and national events

Europäische Konferenz zur Gesundheitsförderung in Haft
