1. DESCRIPTION OF DISSEMINATION ACTIVITIES

1.1. Description of the activities carried out during the reporting period

Activities in WP2 – Dissemination – comprise three actions: 1) Webpage; 2) internal communication and exchange; 3) public outreach activities (leaflet and conferences).

1.1.1. Webpage

EPPIC Twitter account as at 2.5.18 is following 853 organisations/individuals, has 268 followers and has tweeted/re-tweeted 208 times.

A “comment-box” has been inserted on two places on the webpage: the front page (home) and in the “information section” under “general information”. Comments are collected in a folder and the webmaster must approve the feedback before it goes online.

None of the boxes has been used for serious replies. Instead, more than 500 spam messages were received within 2 months.

The webpage has been permanently updated. All national and cross-country reports, announcements and activities have been uploaded.

A new EPPIC flyer has been produced and can be downloaded from the webpage.

The link to the EPPIC webpage has been included in all correspondence with practitioners in the partner countries, e.g. when recruiting expert for individual interviews and National Advisory Boards, and as part of the coordination process with national practitioners to arrange interviews with clients.

1.1.2. Internal communication and exchange activities

A partner meeting was held January 11th -12th 2018 in Warsaw, Poland.

Administrative matters and preliminary results were exchanged in a number of tele-conferences:

- 2nd March 2018
- 26th April 2018
- 20th June 2018

EPPIC one minute video: What is EPPIC doing in the UK? This video was uploaded on to twitter on 24.4.18 and has had 294 views, 18 re-tweets and 18 likes.

1.1.3. Public outreach activities: Newsletter

A second newsletter has been produced (in English language) to be distributed both in print and in electronic version.

1.1.4. Public outreach activities: National events
